

Сведения об официальном оппоненте

Кульбачинский Андрей Владимирович, доктор биологических наук, специальность 03.00.03 – молекулярная биология, профессор, профессор РАН, зав. лабораторией, Федеральное государственное бюджетное учреждение Институт молекулярной генетики Национального исследовательского центра «Курчатовский институт», г. Москва

Список основных публикаций по теме диссертации за последние 5 лет:

1. Esyunina D., Klimuk E., Severinov K., Kulbachinskiy A. Distinct pathways of RNA polymerase regulation by a phage-encoded factor // Proc. Natl. Acad. Sci. USA – 2015. – V. 112. – № 7. – P. 2017-2022. doi: 10.1073/pnas.1416330112.
2. Pupov D., Kulbachinskiy A. Single-stranded DNA aptamers for functional probing of bacterial RNA polymerases // Methods Mol. Biol. – 2015. – V. 1276. – P. 165-183. doi: 10.1007/978-1-4939-2392-2_9.
3. Petushkov I., Pupov D., Bass I., Kulbachinskiy A. Mutations in the CRE pocket of bacterial RNA polymerase affect multiple steps of transcription // Nucleic Acids Res. – 2015. – V. 43. – № 12. – P. 5798-5809. doi: 10.1093/nar/gkv504.
