

Сведения об официальном оппоненте

Колосова Наталия Гориславовна, доктор биологических наук, специальность 03.03.04 – клеточная биология, цитология, гистология, профессор, главный научный сотрудник, зав. лабораторией, Федеральный исследовательский центр Институт цитологии и генетики СО РАН.

Список основных публикаций по теме диссертации за последние 5 лет:

1. Muraleva N. A., Kozhevnikova O. S., Fursova A. Z., Kolosova N. G. Suppression of AMD-Like Pathology by Mitochondria-Targeted Antioxidant SkQ1 Is Associated with a Decrease in the Accumulation of Amyloid β and in MTOR Activity // *Antioxidants* – 2019. – V. 8. – № 6. – P. 177.
2. Oshchepkov D., Chadaeva I., Kozhemyakina R., Zolotareva K., Khandaev B., Sharypova E., Ponomarenko P., Bogomolov A., Klimova N. V., Shikhevich S., Redina O., Kolosova N. G., Nazarenko M., Kolchanov N. A., Markel A., Ponomarenko M. Stress Reactivity, Susceptibility to Hypertension, and Differential Expression of Genes in Hypertensive Compared to Normotensive Patients // *IJMS*. – 2022. – V. 23. – № 5. – P. 2835.
3. Muraleva N. A., Stefanova N. A., Kolosova N. G. SkQ1 Suppresses the P38 MAPK Signaling Pathway Involved in Alzheimer's Disease-Like Pathology in OXYS Rats // *Antioxidants*. – 2020. – V. 9 – № 8. – P. 676.
4. Kozhevnikova O. S., Telegina D. V., Devyatkin V. A., Kolosova N. G. Involvement of the Autophagic Pathway in the Progression of AMD-like Retinopathy in Senescence-Accelerated OXYS Rats // *Biogerontology*. – 2018. – V. 19. – № 3. – P. 223–235.
5. Andreev-Andrievskiy A. A., Kolosova N. G., Stefanova N. A., Lovat M. V., Egorov M. V., Mansikh V. N., Zinovkin R. A., Galkin I. I., Prihodko A. S., Skulachev M. V., Lukashev A. N. Efficacy of Mitochondrial Antioxidant Plastoquinonyl-Decyl-Triphenylphosphonium Bromide – SkQ1) in the Rat Model of Autoimmune Arthritis // *Oxidative Medicine and Cellular Longevity* – 2016. – V. 2016. – P. 1–9.
6. Kozhevnikova O. S., Telegina D. V., Tyumentsev M. A., Kolosova N. G. Disruptions of Autophagy in the Rat Retina with Age During the Development of Age-Related-Macular-Degeneration-like Retinopathy // *IJMS*. – 2019. – V. 20 – № 19. – P. 4804.
7. Rudnitskaya E. A., Burnyasheva A. O., Kozlova T. A., Peunov D. A., Kolosova N. G., Stefanova N. A. Changes in Glial Support of the Hippocampus during the Development of an Alzheimer's Disease-like Pathology and Their Correction by Mitochondria-Targeted Antioxidant SkQ1 // *IJMS*. – 2022. – V. 23 – № 3. – P. 1134.

8. Telegina D. V., Kozhevnikova O. S., Fursova A. Zh., Kolosova N. G. Autophagy as a Target for the Retinoprotective Effects of the Mitochondria-Targeted Antioxidant SkQ1 // *Biochemistry Moscow*. – 2020. – V. 85. – № 12. – P. 1640–1649.
