

Сведения об официальном оппоненте

Трифонов Владимир Александрович, доктор биологических наук, специальность 03.01.07 – молекулярная генетика, зав. лабораторией, Федеральное государственное бюджетное учреждение науки Институт молекулярной и клеточной биологии СО РАН.

Список основных публикаций по теме диссертации за последние 5 лет:

1. Evdokimov A., Popov A., Ryabchikova E., Koval O., Romanenko S., Trifonov V., Petruseva I., Lavrik I., Lavrik O. Uncovering Molecular Mechanisms of Regulated Cell Death in the Naked Mole Rat // *Aging*. – 2021. – V. 13. – № 3. – P. 3239–3253.
2. Höhne C., Prokopov D., Kuhl H., Du K., Klopp C., Wuertz S., Trifonov V., Stöck M. The Immune System of Sturgeons and Paddlefish: A Review with New Data from a Chromosome- scale Sturgeon Genome // *Rev. Aquacult.* – 2021. – V. 13. – № 3. – P. 1709–1729.
3. Kosova A. A., Kutuzov M. M., Evdokimov A. N., Ilina E. S., Belousova E. A., Romanenko S. A., Trifonov V. A., Khodyreva S. N., Lavrik O. I. Poly(ADP-Ribosyl)ation and DNA Repair Synthesis in the Extracts of Naked Mole Rat, Mouse, and Human Cells // *Aging*. – 2019. – V. 11. – № 9. – P. 852–2873.
4. Romanenko S. A., Malikov V. G., Mahmoudi A., Golenishchev F. N., Lemskaya N. A., Pereira J. C., Trifonov V. A., Serdyukova N. A., Ferguson-Smith M. A., Aliabadian M., Graphodatsky A. S. New Data on Comparative Cytogenetics of the Mouse-Like Hamsters from Iran and Turkmenistan // *Genes*. – 2021. – V. 12. – № 7. – P. 964.
