

Сведения об официальном оппоненте

Копылов Алексей Михайлович, доктор химических наук, кафедра химии природных соединений химического факультета МГУ имени М. В. Ломоносова, профессор.

Список основных публикаций по теме диссертации за последние 5 лет:

1. Alieva R., Novikov R., Tashlitsky V., Arutyunyan A., Kopylov A., Zavyalova E. Bimodular thrombin aptamers with two types of non-covalent locks // *Nucleosides Nucleotides Nucleic Acids*. -2021. – V. 40. – N 5. – P. 559-577.
2. Bizyaeva A.A., Bunin D.A., Moiseenko V.L., Gambaryan A.S., Balk S., Tashlitsky V.N., Arutyunyan A.M., Kopylov A.M., Zavyalova E.G. The functional role of loops and flanking sequences of G-quadruplex aptamer to the hemagglutinin of influenza A virus // *Int. J. Mol. Sci.* – 2021. – V. 22. – N 5. – Article No. 2409.
3. Legatova V., Samoilenkova N., Arutyunyan A., Tashlitsky V., Zavyalova E., Usachev D., Pavlova G., Kopylov A. Covalent bi-modular parallel and antiparallel G-quadruplex DNA nanoconstructs reduce viability of patient glioma primary cell cultures // *Int. J. Mol. Sci.* – 2021. – V. 22. - N 7. – Article No. 3372.
4. Zavyalova E. G., Ustinov N. B., Kopylov A. M. Exploring the efficiency of thrombin inhibitors with a quantitative model of the coagulation cascade // *FEBS Lett.* – 2020. – V. 594. - N 6. – P. 995-1004.
